Pengaruh Suhu Terhadap Hasil Produk Cor Komponen Otomotif yang Terbuat dari Bahan Scrap Aluminium

Y.B Moelyanto Soediro

Deskripsi Lengkap: <http://lib.uhamka.ac.id/detail.jsp?id=48544&lokasi=lokal>

Abstrak

The product of aluminium casting such as automotive components depends on its casting process, material for casting for example aluminium scraps and its alloys. One of the factors for casting process is temperature that should properly based on the composition of alloys and standard. Result showed that casting temperature and its alloys may influence the product quality and can decrease its dimensions.
